

SHEIKE SHIAM SHARIF

JUNIOR SOFTWARE DEVELOPER

GitHub: shiamsharif - LinkedIn: shiam-sharif-736339251
shiam.sharif.07@gmail.com - +8801725547494 - Dhaka, Bangladesh

PROFILE

Junior Software Developer with practical experience in backend development, RESTful API design, and full-stack web application development. Skilled in Django, Django REST Framework, Python, JavaScript, React, Next.js, Tailwind CSS, PostgreSQL, and MySQL. Experienced in developing scalable APIs, integrating frontend applications with backend services, creating Django template-based web interfaces, and testing APIs with Postman. Currently strengthening Docker with a strong focus on clean code, maintainable architecture, and production-ready application development.

KEY COMPETENCIES

- Django / Django REST Framework
 - REST API Design and Integration
 - Python and JavaScript
 - React / Next.js
 - Tailwind CSS / Bootstrap / DaisyUI
 - PostgreSQL / MySQL / SQL
 - Git, GitHub, and Postman
 - Docker Fundamentals
-

PROFESSIONAL EXPERIENCE

Miicon Solutions Ltd.

Jan 2025 – Present

Junior Back-end Developer. (Python, Django, Django REST Framework, PostgreSQL, Git, Postman)

During my experience at Miicon Solutions Ltd., I have worked on backend systems and REST API development for business-focused web applications. I contributed to API implementation, debugging, database-driven features, and frontend-backend collaboration. I also worked with product import/export flows, dashboard APIs, notification-related features, and production-oriented Django applications.

Accomplishments:

- Developed and maintained scalable REST APIs using Django and Django REST Framework for POS, inventory, customer, supplier, and dashboard modules.
- Contributed to Bikroy Plus by building and updating APIs such as Blog CRUD, Product Import/Export, Product Summary, and Dashboard endpoints.
- Worked on Excel import workflows, including backend validation, required field checks, product type handling, and database persistence logic.
- Collaborated with frontend developers to ensure smooth API integration, proper response formats, and clear error handling.
- Improved API testing and documentation workflow using Postman and Git-based collaboration.
- Helped build and maintain full-stack Django features for Miicon Solutions Website, including Q&A forum, blog, job portal, and secure contact forms.

Exoveon

Sep 2025 – Mar 2026

Software Developer, Part-Time. (Python, Django, HTML, CSS, JavaScript, Tailwind CSS, Next.js)

Worked on backend features and responsive web interfaces for client projects. Contributed to Django-based development and frontend UI implementation using modern web technologies.

Accomplishments:

- Developed and delivered frontend pages for ShodaiCart using Django Templates, HTML, CSS, JavaScript, and Tailwind CSS.
 - Built responsive service and marketing websites using Next.js and Tailwind CSS.
 - Worked with backend and frontend requirements to deliver clean UI components and maintainable project structure.
-

EDUCATION

Bachelor of Science in Computer Science and Engineering
Northern University Bangladesh
Passed with a GPA of 3.80

Jan 2022 – May 2025

PROJECTS

Bikroy Plus Live Link

- Contributed to a POS and inventory management system using Django REST Framework.
- Built and updated APIs for Blog CRUD, Product Import/Export, Dashboard, Product Summary, Customer, Supplier, and inventory-related modules.
- Worked with structured API responses, filtering, sorting, validation, and Excel-based import workflows.

Shodai Cart Live Link

- Developed the complete frontend using Django Templates, HTML, CSS, JavaScript, and Tailwind CSS.
- Created responsive user interfaces and integrated frontend pages with backend-driven dynamic data.

Miicon Solutions Website Live Link

- Developed and deployed a full-stack Django web application with a Q&A forum, blog, and job portal.
- Used Django Templates, Bootstrap, and Google reCAPTCHA to build secure and user-friendly web features.

NUB ITSupport GitHub Link

- Built a Django REST API-based issue-reporting platform for students, teachers, and staff.
- Implemented features to report, manage, and track lab issues in real time.

Zenorin Live Link

- Developed a responsive service showcase web application using Next.js and Tailwind CSS.

OrbitX Live Link

- Developed a responsive marketing website using Next.js and Tailwind CSS.
